

# CRYOSTATION LEASING PROGRAM

Own a system with the budget you already have available.

## THE REAL COST OF LHe

A \$2,000/mo. LHe budget is costing you much more than money down the drain.

Consider your time wasted...

- = Ordering & waiting for delivery
- = Rescheduling experiments due to late shipments
- = Swapping out tanks in the middle of the night
- = Restarting experiments because you run out of LHe

## THE C2 ADVANTAGE

Invest in performance with an automated closed-cycle optical cryostat from Montana Instruments.

The Cryostation C2 is optimized for thermal performance, low vibrations, and end-user functionality.

- = Monthly Payment: ~\$1700\*
- = Time freed up to focus on results: PRICELESS!

LEASE  
TO  
OWN

Use Your Helium Budget to Pay for a New System!

Payments as  
low as  
**\$1,700**  
per month\*
